

Go Flourish Gardens are designed using 3 principles; beauty, biodiversity & productivity

The gardens are used to support curriculum-learning with dedicated RHS-trained Liaison Teacher's.

The gardens are used as intergenerational community spaces to build skills through volunteering both within and outwith school time.

The gardens are used for skills and community building by using the space to host workshops & events.

A perfect place to learn about and to share food.

The garden provides an opportunity to shine - to recognise creativity, integrity, team-work and the importance of looking after each other and the world around us.
