

FASCALLY RECREATION PERIMETER

Remove the current fencing and replace with a new fence around the exact perimeter of land owned by CCC. This will create a safe zone and give a clear indication of what land is available for present and future projects. Landscape and tidy where required.

**OLD HERITAGE CENTRE**

Renovate to create changing rooms, lounge area, kitchen, reception, storage and a workshop for local groups.

**FOOTBALL PARK**

Backfill and create a new drainage system, a new football park, dugouts and a safety net at the roadside end. On the bottom tier create a slabbed seating area that can be used as a vantage point as well as a picnic area. Create a football academy to support youth players and their development.

PATHS

Create a path for running, cycling and walking throughout each area so that it will be an all accessible complex for mobility scooters, wheelchairs and prams. There will be solar powered post lights on route for evenings and winter use. School can use for cycling proficiency. Designated day/hours for people with disabilities to use the complex and feel comfortable and safe. Continuation of path from complex to Park Terrace.

**PLAYPARK**

The creation of a new Playpark. Possibility of removing the current road that runs through the centre of the playpark and extend parking area beside the old heritage. This will further enhance the safe zone and limit vehicle use on the complex.

**SOLAR PANELS**

This will allow us to produce a clean renewable energy source and help us to provide an eco-friendly complex.

ECO FRIENDLY GAMES HALL

To create an eco-friendly facility that can be used for multi sports use like indoor football, basketball, badminton, squash, tennis and could also be used for line dancing, indoor bowls, spinning classes, martial arts, community shows and music events.

ALLOTMENTS

Designate areas for allotments, polytunnels, flower beds and a tree nursery. This could encourage outdoor learning projects for all ages. The tree nursery can be used for individuals to plant their own tree on site or a designated area within the parish of Clyne. Trees and flowers can also be used by Brighter Brora to help enhance all areas of Brora.

OUTDOOR FITNESS EQUIPMENT

Install all weather outdoor fitness equipment. This will encourage people to spend time working out whilst outdoors. This equipment will also help and support people with disabilities and like the walking paths a time/day could be designated for use with anyone with disabilities to help them feel comfortable and confident.

MUSIC AND EVENTS VENUE

The landscape is currently a perfect venue to host music or events. Aside from having live music the complex could be used by local groups to host events like an Easter festival, Brora Gala Week, Summer Fete, Halloween/Bonfire shows and a Christmas festival all in a safe environment.

HORSE RIDING CENTRE

The lower field at Fascally is the ideal location for a Horse-Riding Centre where people all of ages can learn how to ride a horse. A great place for people of all ages and tourists to visit whilst staying in Brora on Holiday. Enhance the river path and add seating areas.
